☰ APPLICATION PERMISSIONS

PERMISSION	STATUS	INFO	DESCRIPTION
android.permission.INTERNET	normal	full Internet access	Allows an application to create network sockets.
android.permission.ACCESS_NETWORK_STATE	normal	view network status	Allows an application to view the status of all networks.
android.permission.ACCESS_WIFI_STATE	normal	view Wi-Fi status	Allows an application to view the information about the status of Wi-Fi.
android.permission.USE_FINGERPRINT	normal	allow use of fingerprint	This constant was deprecated in API level 28. Applications should request USE_BIOMETRIC instead.
android.permission.VIBRATE	normal	control vibrator	Allows the application to control the vibrator.
android.permission.WAKE_LOCK	normal	prevent phone from sleeping	Allows an application to prevent the phone from going to sleep.
android.Manifest.permission.MODIFY_AUDIO_SETTINGS	normal	change your audio settings	Allows application to modify global audio settings, such as volume and routing.
android.permission.POST_NOTIFICATIONS	dangerous	allows an app to post notifications.	Allows an app to post notifications

PERMISSION	STATUS	INFO	DESCRIPTION
android.permission.ACCESS_FINE_LOCATION	dangerous	fine (GPS) location	Access fine location sources, such as the Global Positioning System on the phone, where available. Malicious applications can use this to determine where you are and may consume additional battery power.
android.permission.ACCESS_COARSE_LOCATION	dangerous	coarse (network-based) location	Access coarse location sources, such as the mobile network database, to determine an approximate phone location, where available. Malicious applications can use this to determine approximately where you are.
android.permission.CAMERA	dangerous	take pictures and videos	Allows application to take pictures and videos with the camera. This allows the application to collect images that the camera is seeing at any time.
android.permission.WRITE_EXTERNAL_STORAGE	dangerous	read/modify/delete external storage contents	Allows an application to write to external storage.
android.permission.READ_EXTERNAL_STORAGE	dangerous	read external storage contents	Allows an application to read from external storage.
android.permission.RECORD_AUDIO	dangerous	record audio	Allows application to access the audio record path.
android.permission.USE_BIOMETRIC	normal	allows use of device-supported biometric modalities.	Allows an app to use device supported biometric modalities.

PERMISSION	STATUS	INFO	DESCRIPTION
com.google.android.c2dm.permission.RECEIVE	normal	recieve push notifications	Allows an application to receive push notifications from cloud.
com.google.android.gms.permission.AD_ID	normal	application shows advertisements	This app uses a Google advertising ID and can possibly serve advertisements.
com.android.vending.BILLING	normal	application has in-app purchases	Allows an application to make in-app purchases from Google Play.
com.zocdoc.android.DYNAMIC_RECEIVER_NOT_EXPORTED_PERMISSION	unknown	Unknown permission	Unknown permission from android reference
android.permission.MODIFY_AUDIO_SETTINGS	normal	change your audio settings	Allows application to modify global audio settings, such as volume and routing.
com.google.android.finsky.permission.BIND_GET_INSTALL_REFERRER_SERVICE	normal	permission defined by google	A custom permission defined by Google.

MANIFEST ANALYSIS

HIGH: 0 | WARNING: 10 | INFO: 0 | SUPPRESSED: 0

NO	ISSUE	SEVERITY	DESCRIPTION
1	App can be installed on a vulnerable Android version 8.0, minSdk=26]	warning	This application can be installed on an older version of android that has multiple vulnerabilities. Support an Android version => 10, API 29 to receive reasonable security updates.

NO	ISSUE	SEVERITY	DESCRIPTION
2	App has a Network Security Configuration[android:networkSecurityConfig=@xml/network_security_config]	info	The Network Security Configuration feature lets apps customize their network security settings in a safe, declarative configuration file without modifying app code. These settings can be configured for specific domains and for a specific app.
3	Broadcast Receiver (com.zocdoc.android.receiver.InstallReceiver) is not Protected. [android:exported=true]	warning	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.
4	Activity-Alias (com.zocdoc.android.LoadInitialDataActivity) is not Protected. [android:exported=true]	warning	An Activity-Alias is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.
5	Activity (com.zocdoc.android.debug.DebugInfoActivity) is not Protected. [android:exported=true]	warning	An Activity is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.
6	Activity (com.zocdoc.android.sso.view.SsoLandingPageActivity) is not Protected. [android:exported=true]	warning	An Activity is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.
7	Activity (com.zocdoc.android.debug.customscreen.DebugAutofillMemberIdActivity) is not Protected. [android:exported=true]	warning	An Activity is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.

NO	ISSUE	SEVERITY	DESCRIPTION
8	TaskAffinity is set for activity (com.braze.push.NotificationTrampolineActivity)	warning	If taskAffinity is set, then other application could read the Intents sent to Activities belonging to another task. Always use the default setting keeping the affinity as the package name in order to prevent sensitive information inside sent or received Intents from being read by another application.
9	Service (com.google.android.gms.auth.api.signin.RevocationBoundService) is Protected by a permission, but the protection level of the permission should be checked. Permission: com.google.android.gms.auth.api.signin.permission.REVOCATION_NOTIFICATION [android:exported=true]	warning	A Service is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. It is protected by a permission which is not defined in the analysed application. As a result, the protection level of the permission should be checked where it is defined. If it is set to normal or dangerous, a malicious application can request and obtain the permission and interact with the component. If it is set to signature, only applications signed with the same certificate can obtain the permission.

NO	ISSUE	SEVERITY	DESCRIPTION
10	Broadcast Receiver (com.google.firebase.iid.FirebaseInstanceIdReceiver) is Protected by a permission, but the protection level of the permission should be checked. Permission: com.google.android.c2dm.permission.SEND [android:exported=true]	warning	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. It is protected by a permission which is not defined in the analysed application. As a result, the protection level of the permission should be checked where it is defined. If it is set to normal or dangerous, a malicious application can request and obtain the permission and interact with the component. If it is set to signature, only applications signed with the same certificate can obtain the permission.
11	Broadcast Receiver (androidx.profileinstaller.ProfileInstallReceiver) is Protected by a permission, but the protection level of the permission should be checked. Permission: android.permission.DUMP [android:exported=true]	warning	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. It is protected by a permission which is not defined in the analysed application. As a result, the protection level of the permission should be checked where it is defined. If it is set to normal or dangerous, a malicious application can request and obtain the permission and interact with the component. If it is set to signature, only applications signed with the same certificate can obtain the permission.

Title: Zocdoc - Find and book doctors

Score: 4.8165407 **Installs:** 1,000,000+ **Price:** 0 **Android Version Support:** Medical **Play Store URL:** [com.zocdoc.android](https://play.google.com/store/apps/details?id=com.zocdoc.android)

Developer Details: Zocdoc, Inc., Zocdoc,+Inc., None, <https://www.zocdoc.com>, service@zocdoc.com,

Release Date: Jul 25, 2011 **Privacy Policy:** [Privacy link](#)

Description:

Zocdoc is the leading healthcare app that makes it easy for you to find and book the right doctor. Each month, millions of people use Zocdoc to search for in-network care and instantly book appointments online. Whether you need a doctor on demand or want to schedule a doctor appointment online, Zocdoc makes it fast and easy. Patients typically see a doctor within 24 to 72 hours of booking. Download the FREE Zocdoc app to find and book a doctor today. WHY PATIENTS LOVE ZOCDOC Zocdoc makes it easy to go from searching to scheduling in just a few taps. - Search by your insurance and city to find in-network doctors near you - Browse by specialty, availability, or procedure to get the care you need - Filter by what matters to you: distance, gender, ratings, and more - Read real, verified reviews from other patients - See providers' real-time appointment availability - Easily book in-person or telehealth visits that fit your schedule - Get automatic reminders so you never miss an appointment - Fill out your forms ahead of time, so your visit starts smoothly POPULAR CARE OPTIONS Zocdoc connects patients to nearly 100,000 providers across more than 250 specialties. You can book an online doctor for a virtual visit, schedule urgent care, book in-person care near you, or find providers who accept Medicare plans. Looking to schedule a dental cleaning, therapy appointment, or Rx refill? Zocdoc helps you book the appointment you need, from routine visits to specialized care. Here are just a few of the most popular services patients book through the app: - Dentist: Dental cleanings, checkups, and x-rays - Therapist: Therapy sessions for mental health support - Primary Care Doctor: Annual checkups and physicals - OB-GYN: Pap smears and women's health visits - Dermatologist: Skin checks and acne consultations - Psychiatrist: Medication management and evaluations - Pediatrician: Wellness visits and sick appointments for kids - Eye Doctor: Vision exams and prescription updates - Orthopedic Specialist: Joint pain, injuries, and sports medicine - Cardiologist: Heart health screenings and follow-ups There are many more specialties and procedures you can book with Zocdoc. Your healthcare, on your terms. INSURANCE PLANS ACCEPTED Zocdoc makes it easy to find doctors who accept your insurance, with no phone calls or guesswork required. Here are some of the most commonly accepted insurance plans on Zocdoc. - Cigna - UnitedHealthcare - Aetna - Kaiser Permanente - Blue Cross Blue Shield - Anthem - Humana - Oscar Health - Molina Healthcare - Healthfirst Doctors on Zocdoc accept over 18,000 different insurance plans, making it easy to find in-network care. No matter what plan you have, Zocdoc helps you see what's in-network and book care confidently. HOW TO BOOK AND MANAGE CARE WITH ZOCDOC Search and compare. Search by specialty or symptom, along with location, availability, and insurance, to see providers who are in-network. Research and compare providers by reviewing their profiles, which include professional statements, education background, photos, and verified reviews and ratings from other patients. Instantly book. View providers' real-time appointment availability, select a convenient time, and click to instantly book an appointment, 24/7. Prepare for your appointment. Save time by filling out intake forms and insurance information on Zocdoc ahead of the visit. Stay on top of your healthcare. Keep track of upcoming visits with appointment reminders and personalized recommendations for preventive care. View your care team and easily rebook. From search to follow-up, Zocdoc makes it simple to manage your care from one place.
